Parent Electronic Notification Opt-In Form

In order to provide the best service to our parents, OLMC has developed a system to provide proactive notifications via email or SMS text message in the event of school closings, early dismissals, etc.

In order to receive these notifications, we are requiring interested parents to opt-in by completing and signing this form. Please send the completed forms to school with your student.

(Initially we will be providing notifications to all participants. In the future, we will be offering parents to be included in notify lists based on participation in specific groups and clubs.)
